EUROPEAN WAR HAS PROVIDED PLANTS LETTER to WOMEN

Can Supply All Munitions Wanted --- American Soldiers Are Well Fed

Washington, June 21.—The European war has prepared the United States to quip and munition its army. This was the statement of war de-

our ment officials today. The only adverse circumstances resulting from the great war abroad, officials said, is a possibility of a horse shortage.

These facts have been learned after

we or three days and nights of almost ontinuous work in the quartermaster's

few days to supply the regular and maintin forces for some time.

Only a rough estimate can be made of
the cost of keeping 100,000 national
guardsmen along the border. It has
cost about \$10,000,000 to keep forces
varying from 25,000 to 40,000 regulars
for three months. This is at the rate
of a little over \$100,000 a day. Proportionately, the militin would cost \$250,
000 a day—and the necessary expense
of bringing their engineers up to resof bringing their equipment up to regular army standards.

The American soldier will continue he best fed in the world-at a cost of more than 50 cents a slay per man. Held in strict confidence.
